BENEFIT CHECK BEFORE YOUR VISIT – this is a worksheet for YOU; it is not necessary to return it to our office. Because of major changes in insurance policies, we cannot check insurance coverage for you. Please make sure you know Dr. Andrick is in your network, whether or not you require a referral from your PCP to see a specialist (and request that your PCP send a referral to our office prior to your appointment if needed) and in general, make sure you understand your policy coverage.

On the back of your insurance card there should be a phone number that you can call for insurance questions. Your goal is to reach a representative that can give you detailed information about what your policy covers. Follow the prompts until you are talking to a real person! Once you are speaking to a representative, the following questions should be asked:
